RAJ R

Full Stack Developer | Java | Python | React | Spring Boot | Django
Madurai, Tamil Nadu | +91 7092967550 | infotechraj2005@gmail.com | GitHub:rajr2005 | Portfolio

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on experience in software development, building scalable web applications, and RESTful API design. Proficient in Java (Spring Boot), Python (Django), React.js, and MySQL. Demonstrated ability to deliver production-ready software solutions across full SDLC — from requirements gathering and system design to deployment and maintenance. Passionate about clean code, performance optimization, Agile methodologies, and continuous learning.

PROFESSIONAL EXPERIENCE

Software Developer | Scopetech Software Solutions | Madurai, Tamil Nadu *May 2025 – August 2026*

- Designed, developed, and maintained full-stack web applications using Java (Spring Boot) and React.js, improving application performance and user experience.
- Built and consumed RESTful APIs for seamless frontend-backend integration, following MVC architecture and industry best practices.
- Collaborated with cross-functional Agile teams to deliver features on schedule, participating in sprint planning, code reviews, and daily stand-ups.
- Developed and optimized MySQL database schemas, queries, and stored procedures to support scalable data management.
- Implemented responsive UI components using React.js, HTML5, CSS3, and JavaScript (ES6+) ensuring cross-browser compatibility.
- Utilized Git and GitHub for version control, branch management, and collaborative code development.
- Wrote and executed unit tests and integration tests to ensure code quality and reduce production defects.
- Integrated third-party APIs and services to extend application capabilities and improve workflow automation.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript (ES6+),C,C++
Frameworks & Libraries: Spring Boot, Django, React.js, Pandas, NumPy, Matplotlib, Seaborn
Frontend Technologies: HTML5, CSS3, React.js, JavaScript, Responsive Web Design, Cross-Browser Compatibility
Backend & API Development: RESTful API Design, MVC Architecture, Microservices, Spring MVC
Database: MySQL, SQL, Database Design, Query Optimization
Tools & Platforms: Git, GitHub, Postman, VS Code, IntelliJ IDEA, Maven
Core Concepts: Object-Oriented Programming (OOP), Data Structures, SDLC, Code Review

PROJECTS

Attendance Management System — Java (Spring Boot) | React.js | MySQL | REST API
github.com/rajr2005/Attendance-Management

- Developed a scalable full-stack attendance tracking system with real-time data management and reporting.
- Built secure RESTful APIs for seamless frontend-backend integration and role-based access control.
- Implemented responsive UI with React.js, improving user experience across desktop and mobile devices.

Institute Video Management System — Python (Django) | React.js | MySQL | Role-Based Access
github.com/rajr2005/Institute-Video-Management

- Architected a multi-role platform (Admin, Teacher, Student) with fine-grained permission management.
- Enabled secure video upload, subject-wise categorization, and access control using Django backend.
- Improved content organization and accessibility, enhancing overall digital learning experience.

Mock API Creator Tool — Java (Spring Boot) | React.js | REST API Simulation *github.com/rajr2005/Api-Creator*

- Built a dynamic API mock creation tool enabling developers to simulate endpoints for rapid testing.
- Implemented flexible request/response handling supporting multiple HTTP methods and custom payloads.
- Reduced development cycle time by enabling frontend development without waiting for backend readiness.

EDUCATION

B.Sc. Information Technology 2025
Ultra Arts and Science College, Madurai | CGPA: 6.4

CERTIFICATIONS & ACHIEVEMENTS

Junior Data Analyst 2026
Vinsys IT Services, under Tamil Nadu Skill Development Corporation (TNSDC)

TCS iON NQT (National Qualifier Test) 2026

- IT: Achieved 75.09% overall aggregate
- 87.05% in Advanced Quantitative & Reasoning Ability
- 72.47% in Programming (Python)

CORE COMPETENCIES

Problem Solving • Team Collaboration • Communication • Adaptability • Time Management • Attention to Detail • Critical Thinking • Self-Motivated Learner
